Correct, no deliverables submitted yet. The Upper Animas Watershed Mine Site TDD was issued 2 days before the release and the project plan has not completed because the OSC was on vacation then responding to the Gold King release. I imagine the project plan will change somewhat due to the release.

Similar for the Upper Animas Soils project. I cc'd you on the request to Joyel to extend the deadline for the project plan and SAP for that project and she concurred in an e-mail yesterday.

There have been no final deliverables for the Upper Animas Watershed Mine Site TDD right?

Hi Scott – I am just confirming that EPA is requesting copies of deliverables for the Gold King Mine Site for work PRIOR to the release. No doubt the OSC has these, but he is far too busy at the incident for us to get them from him.

Please provide only final documents, no drafts. It appears that there was a TDD issued in 2014 (1408-01) and two TDDs issued in 2015 (1508-01 and 1508-02).

Please contact me if you have any questions. Thank you for your assistance!
